Brisbane QLD 4001

Dear Paul

Eastern Busway update

Firstly, I would like to apologise for not responding to your request for a briefing sooner. We are currently working through the many issues raised by the community during the consultation in June-August 2006. Through this consultation we received some good support for the bicycle facilities proposed at the busway stations and questions about proposed bikepaths.

I am planning to hold a briefing with all bike groups, including CBD BUG, in early February 2007. A briefing of all of the bicycle groups together ensures that the common issues and priorities can be captured. I was hoping that CBD BUG could be represented at the briefing and that the discussions could be reported back to your group by the representative.

At this stage a specific date has not yet been set for the briefing, but I will let you know the details as soon as possible.

In the meantime, if you have any questions about the Eastern Busway, please contact the project team on (freecall) 1800 550 277 or by email at easternbusway@transport.qld.gov.au.

Yours sincerely

Jurgen Pasieczny
Manager (Eastern Busway)
