Brisbane CBD Bicycle Users' Group
GPO Box 2104
BRISBANE QLD 4001

Dear Mr Murdoch

Eastern Busway Update

You may be aware that TransLink is planning the Eastern Busway which will run from Buranda to Capalaba. The busway will provide a world-class public transport solution offering commuters a congestion-free run on fast, frequent and reliable services. It will also connect with other transport services to provide faster and more reliable access to destinations across Brisbane.

On 21 February 2007, TransLink released the preferred alignment and draft Concept Design and Impact Management Plan for public consultation.

As an important stakeholder in the project, I want to keep you informed and let you know how you can be involved. I have enclosed the latest project newsletter for your information and invite you to comment on the preferred alignment. More details on the alignment can be found at www.translink.com.au/easternbusway.

You are also welcome to attend one of our upcoming community information sessions which begin on 24 February 2007. Please see the enclosed newsletter for all session details.

TransLink needs your feedback on the preferred alignment by 4 April 2007. Please send your comments to the Eastern Busway Project Team at Reply Paid 213, Brisbane Qld 4001 or easternbusway@transport.qld.gov.au.

TransLink will review each submission before submitting a final CDIMP to the state government for consideration in around June 2007.
