Date of Issue: 29 May 2008

NORTH-SOUTH BYPASS TUNNEL

TUNNEL CONSTRUCTION – under the ICB

DURATION OF WORK: mid June 2008 to June 2009

DETAILS:

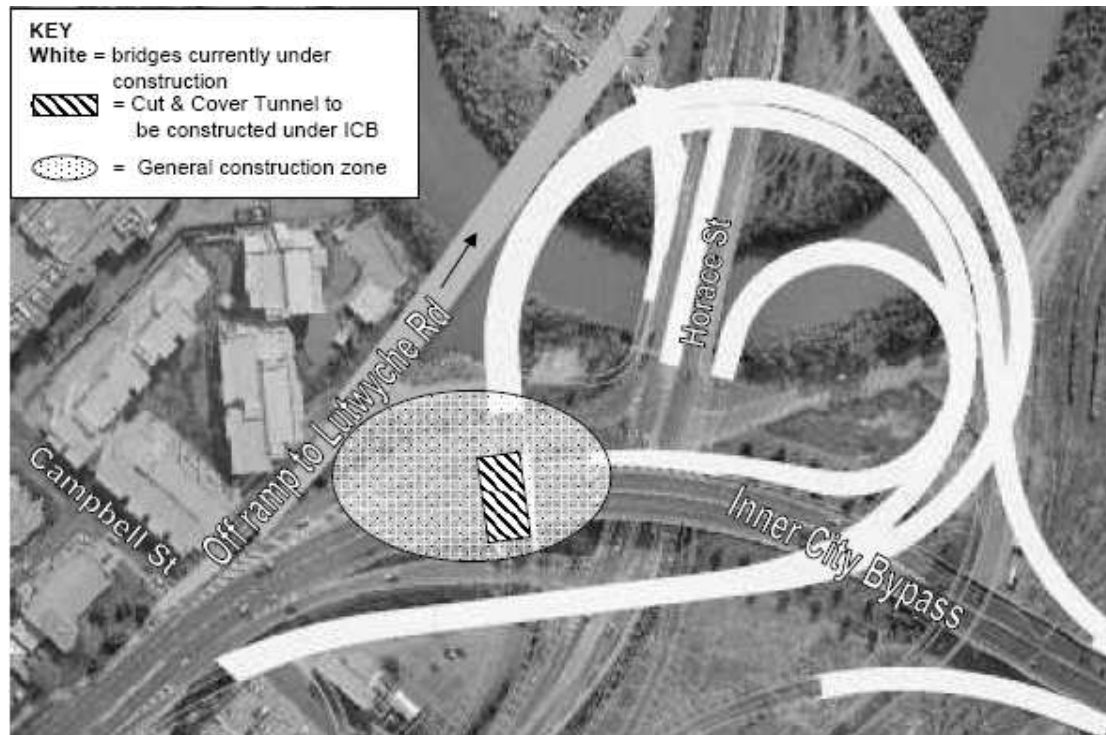

- ⇒ Construction of a tunnel under the existing Inner City Bypass (ICB) for the new exit from Northbound NSBT tunnel to ICB westbound (see map below)
- ⇒ Work involves building up the embankments either side of the existing ICB, laying temporary road pavements, piling excavation and concrete work
- ⇒ Temporary traffic changes to the ICB and work on the ICB will be required
- ⇒ Work will be carried out in stages

WHAT TO EXPECT:

- ⇒ Construction noise including reversing beepers
- ⇒ Some night work
- ⇒ Traffic changes on Inner City Bypass (ICB)

WHAT WE WILL DO:

- ⇒ Provide notification for night work and out-of hours deliveries
- ⇒ Complete as much work during normal construction hours as possible. (Between 6.30am to 6.30pm Monday to Saturday)

Map is indicative only and is not to scale.

WHY WILL SOME WORK BE CARRIED OUT AT NIGHT?

- ⇒ At times we will need to work at night, this will occur when we have to work in close proximity to and/or on the ICB, for example: lane changes, traffic barrier relocation, and removal of lighting or for safety reasons.
- ⇒ We are required to apply for permits for lane closures and road closures from Brisbane City Council. These lane/road closures are only permitted at times where traffic volumes are low - outside of peak traffic times.

FUTURE WORK IN THIS AREA:

- ⇒ **New storm water pipes** will be installed in the area between the Mews Apartments and the ICB off ramp to Lutwyche Road. This work is scheduled to start in June and take around 3 weeks to complete. Work will be carried out within normal construction hours (6.30am to 6.30pm Monday to Saturday).
