

Bicentennial bikeway – Hale Street west upgrade project

Construction works advance notification

Project enquiries: 1800 727 923

The following works will take place between Monday 28 February and Saturday 12 March 2011 (weather permitting).

Date	Site location	Work being carried out
Bicentennial Bikeway		
28 February – 12 March	Along the bikeway between Graham Street to the Go Between Bridge	<ul style="list-style-type: none">• Constructing the footings and the retaining wall from the Cribb Street ramp to the Go Between Bridge• Micro piling works between the Cribb Street ramp and the Cribb Street underpass. This work will be undertaken at night• Temporary widening of the traffic island at the intersection of Cribb Street and Coronation Drive. This work will be undertaken at night

Side track update

On the morning of 22 February 2011, there was an unexpected interruption that caused the closure of the side track. The project team apologises for any inconvenience and thanks cyclists for their patience.

TRAFFIC AND COMMUNITY IMPACTS

- Until mid-2011 the Bicentennial Bikeway will be closed between Graham Street and the Go Between Bridge. Construction work will be undertaken from 6am to 6pm Monday to Saturday.
- Due to the restricted work area, it is likely that work will be undertaken on Sundays and at night.
- Pedestrians (including people in wheel chairs, with prams, on roller blades or scooters) must exit the Bicentennial Bikeway at Graham Street, Milton or the Go Between Bridge and use the Coronation Drive footpath (Milton Road side) at all times.
- Cyclists must:
 - use the temporary side track between 5am and 8pm. This side track will maintain access during the day. Due to its limited width the side track has one-way contra flow traffic management. Controllers will be onsite to manage cyclists and delays of up to five minutes can be expected during peak periods
 - exit the Bicentennial Bikeway at Graham Street, Milton or the Go Between Bridge and use an alternative route between 8pm and 5am.
- Pedestrians, roller bladers and cyclists are to follow the direction of traffic controllers at all times and are asked to proceed with caution in and around the construction zone.
- Cycle traffic speed through the construction zone is reduced to 10km/h for the duration of the work. Safety is our number one priority. Please travel carefully.
- Advance notification of particularly noisy works or major access changes will be provided to properties within the works area.

CONTACT AND ENQUIRIES

If you have any questions about the project, please contact the Bicentennial Bikeway – Hale Street west project team.
