

Bicentennial Bikeway – Hale Street west upgrade project Construction works advance notification

Project enquiries: 1800 727 923

The following works will take place between Monday 28 March and Saturday 9 April 2011 (weather permitting).

Date	Site location	Work being carried out
Bicentennial Bikeway		
28 March – 9 April	Along the bikeway between Graham Street to the Go Between Bridge	<ul style="list-style-type: none">• Constructing the footings and retaining wall from the Cribb Street ramp to the Go Between Bridge• Continuing concreting works from the Cribb Street ramp to the Go Between Bridge• Conducting micro piling works between the Cribb Street ramp and the Cribb Street underpass. This work will be undertaken at night and weekends

TRAFFIC AND COMMUNITY IMPACTS

- **Temporary side track has now reopened.** Due to unforeseen construction issues on the Bicentennial Bikeway upgrade the temporary side track was closed last week. This path was reopened on Saturday 26 March 2011. The project team would like to apologise for the inconvenience and thank bikeway users for their understanding.
- Until mid-2011 the Bicentennial Bikeway will be closed between Graham Street and the Go Between Bridge. Construction work will be undertaken from 6am to 6pm Monday to Saturday.
- Due to the restricted work area, it is likely that work will be undertaken on Sundays and at night.
- Pedestrians (including people in wheel chairs, with prams, on roller blades or scooters) must exit the Bicentennial Bikeway at Graham Street, Milton or the Go Between Bridge and use the Coronation Drive footpath (Milton Road side) at all times.
- Cyclists must:
 - use the temporary side track between 5am and 8pm. This side track will maintain access during the day. Due to its limited width the side track has one-way contra flow traffic management. Controllers will be onsite to manage cyclists and delays of up to five minutes can be expected during peak periods
 - exit the Bicentennial Bikeway at Graham Street, Milton or the Go Between Bridge and use an alternative route between 8pm and 5am.
- Pedestrians, roller bladers and cyclists are to follow the direction of traffic controllers at all times and are asked to proceed with caution in and around the construction zone.
- Cycle traffic speed through the construction zone is reduced to 10km/h for the duration of the work. Safety is our number one priority. Please travel carefully.
- Advance notification of particularly noisy works or major access changes will be provided to properties within the works area.
